# Bursting With Blossoms

A sure sign of spring is the beautiful blossoming of many trees. Here are a few varieties that put on a seasonal show:

**Dogwood** – Native to North America, the Dogwood is famous for its

stunning springtime display of white or pink blooms, making it a popular landscaping tree since America's earliest days. Both George Washington and Thomas Jefferson had Dogwoods planted at their estates.

**Japanese Flowering Cherry** – This tree is the star of the National Cherry Blossom Festival in Washington, D.C., as well as other spring celebrations around the world. Its branches display delicate pink-white flowers that bloom for just a short time early in the season.

**Magnolia** – Prized for their large, fragrant flowers in shades of white, pink, red, purple and yellow, Magnolias are often associated with the South, but varieties are grown in every region.

**And of course ...**

**Hawthorn** – Also known as a May-Tree, is native to northern Europe. The hawthorn blossoms grow in white or pink bunches, and produce small red berries, which can be made into fruit preserves, wine, and other foods. Typically used as an ornamental tree, the Hawthorn is also known for its hallmark thorns that protrude from its branches, and has become the center of many folkloric tales, legends, and beliefs.

## Looking Forward to Spring!

Spring is a time to celebrate all that is new: trees filled with blossoms, baby birds, a new season for gardening, Easter, Mother's Day and so much more! At Hawthorne Court, we have a lot to celebrate, including our fun events and delicious food! Be on the lookout for flyers announcing our Springtime Brunch! Details will follow soon!
